

HEAVY DUTY
SILICONE SPRAY
Stock No. C-33V

Synthetic Polymer Lube

Cyclo's Heavy Duty Silicone Spray is a combination of high quality silicone and carrier designed for maximum performance. Silicone acts as a greaseless lubricant to keep two surfaces apart so that they slide smoothly and easily without friction. The carrier is used to spread the active silicone evenly over the surface and to provide better penetration when lubricating hard-to-reach surfaces. The carrier quickly evaporates leaving a coating of pure silicone.

Cyclo's heavy duty formula contains as much as 250% more active silicone than many other brands. More active silicone means less needs to be used and it will last longer.

LUBRICATES & WATERPROOFS: Superior lubrication for metal, rubber and plastic, locks, latches, hinges, linkages, wiring, sparkplug insulators, distributor caps, switches, O-rings, door and window slides and all mechanical parts...1,001 other uses.

PROTECTS: Metal parts, tools, equipment, battery terminals and cutting blades from rust and corrosion. It also seals out moisture on porous surfaces to act as a water repellent.

STOPS: Squeaks, freezing, sticking and friction.

Automotive • Marine • Farm • Shop • Office • Industry

Dries to the Touch Lubricant Effective from -40°F to +400°F

NOTE: This product is not for sale in California, Delaware, Washington DC, Maine, Maryland, New Jersey, New York, Pennsylvania and Virginia. In those states use VOC compliant C-33 Silicone Spray.

PHYSICAL PROPERTIES

Size:	10 oz / 283 g	Cases per pallet	152
Package:	Aerosol Can	Cases per layer	19
Flash Point:	-156°F (-104°C)	Layers per pallet	8
Boiling Range:	-44°F (-42°C)	Cube	0.45
Specific Gravity(H ₂ O=1)	0.65	Case Weight	10.9
Appearance:	Aerosol product	UPC (Can)	0 89269 00033 4
Solubility in Water:	Nil	UPC (Carton)	1 00 89269 22033 3
