Heavy Duty

BREAK•AWAY®

Fast Penetrating Oil & Lubricant

Stock Nos. C-10, C-12, C-13, C-15

FORMULATED FOR THE TOUGH JOBS…WHERE OTHERS FAIL!

Cyclo Break•Away is a pure oil based product formulated to penetrate faster and lubricate longer. It leaves a thicker, longer lasting lubricating film vs. light duty solvent-based water displacement formulas. Break•Away is famous for completing the cycle of lubrication, reducing the coefficient of friction of hot or cold moving parts.

- PENETRATES AND FREES RUSTED, FROZEN PARTS – bolts, locks, engine parts, hinges, etc.
- LUBRICATES MOVING PARTS to reduce friction and stop annoying squeaks on rollers, hinges, chains, bearings, wheels, bicycle & motorcycle chains, fishing equipment and more. Also reduces friction heat build-up in high pressure applications.
- INHIBITS RUST AND CORROSION on marine equipment, tools, industrial machinery, switches, relays, rollers, locks, guns and fishing equipment, aluminum and chrome surfaces, and much more.

Does NOT contain SILICONE – Safe for body shop use!

PHYSICAL PROPERTIES

Size:	C-10	Net Wt 13 oz/369g
	C-12	Net Wt 2 oz./57g
	C-13	1 gal./3.78 liter
	C-16	55gal
Package:	C-10, C-12, C-15	Aerosol can
	C-13	Liquid/Metal can
Flash Point:	C-10, C-12, C-15 --	<-20˚F
	C-13 --	>200˚F
Boiling Point:		266˚F
Specific Gravity (H_2O=1):		0.896
Appearance:		Amber clear liquid
Solubility in Water:		Slightly
Volatile by Volume:		96%
