

TECHNICAL DATA

CLEARCOAT POLISHING COMPOUND Stock No. 06610

For A Smooth-As-Glass Finish

No.7 Clearcoat Polishing Compound is an effective professional grade treatment developed for the special needs of clearcoats—the clear top layer covering a car’s color coat. No.7 safely cleans and smooths the surface with microfine polishers for a mirror-like shine.

- Eliminates Minor Scratches
- Removes Light Oxidation
- Cleans Stains and Road Film

No.7 – America’s standard in car cleaning for over 50 years!

Directions: 1. Shake well. 2. Wash and dry car (for best results use No.7 Powdered Car Wash). 3. Using back and forth strokes, apply a light coat with a damp applicator. 4. When dry, wipe to a brilliant luster with a clean, soft cloth. 5. To protect finish, apply a good quality auto wax like Rally® Cream or Liqui-Cream™ Wax.

NOTE: Do not use on vinyl tops, metalized plastic trim, simulated wood, decals, rubber bumpers, or flat painted surfaces.

PHYSICAL PROPERTIES

Size:	8 fl. oz. / 236 mL	Cases per pallet	240
Package:	Plastic bottle	Cases per layer	30
Flash Point:	>200°F (93.3°C)	Layers per pallet	8
Specific Gravity (H ₂ O=1):	1@25°C	Cube	0.24
Appearance:	Brown/grey liquid	Case Weight	7.5
		UPC (Bottle)	0 89269 06610 1
		UPC (Carton)	1 00 89269 06610 8
