Tanner's Preserve®

Leather Conditioning Cream

Stock No. 65893

Tanner's Preserve® Leather Conditioning Cream is specially formulated to put back what time and exposure take out of leather. This easy to use cream contains emollients which help restore leather surfaces to a supple, rich luster and keep them in a rich, like new condition. It restores the new leather smell with natural leather. This product is also great for use on furniture, clothing and accessories. Prior to conditioning, clean surface with **Tanner's Preserve® Leather Cleaner**.

Directions: 1. Clean surface with Tanner's Preserve® Cleaner or wipe with damp clean cloth. 2. Apply Conditioning Cream with a clean sponge or soft clean cloth. 3. Rub Conditioning Cream into leather surface with a firm overlapping motion. 4. For best results, let conditioning Cream cure for 5 minutes, then buff lightly with a clean dry cloth. **CAUTION: As with all conditioners, test on a small area first. Not for use on suede or buckskin surfaces. Not for use on driving gloves, steering wheels, or non-leather surfaces.**

PHYSICAL PROPERTIES

Size:	7.5 oz	Layers per pallet	6
Package:	Plastic Bottle	Cases per pallet	384
Boiling Point:	>219°F (>99°C)	Cases per layer	64
Flash Point:	>232°F (>111°C)	Cube	0.13
Specific Gravity (H ₂ O=1):	.9996	Case Weight	3.7
Appearance:	Tan flowing cream	UPC on bottle:	0 71153 65893 6
Solubility in Water:	100%	UPC on Carton:	1 00 71153 65893 3
