

MAX44™

Maximum Diesel Fuel System Cleaner

Stock No. C-44D

Max44™ Diesel is a powerful synthetic formula that cleans fuel injectors, carburetors, intake valves & manifolds – removing power-robbing carbon deposits. A unique blend of concentrated synthetic cleaners formulated to help restore original power removes water and reduces smoke – both common side effects of diesel engines. Stop-and-go driving and short trips can cause carbon deposits throughout the fuel system – even with high quality diesel fuel. Deposit build-up causes poor acceleration., hesitation, rough running, knock, stalling, engine run-on and wastes fuel.

Greater Mileage

Max44™ Diesel is an excellent pre-tune up cleaner. One bottle reduces hydrocarbon (HC), carbon monoxide (CO), nitrous oxide (NO_x) and helps save diesel! Safe for catalytic converters & oxygen sensors. To help maintain maximum power, use every 3,000 miles (4.800 km).

Directions: 1. When gas tank is nearly empty, pour entire contents of container into tank. 2. Refuel with up to 18 gallons of diesel. A second treatment may be helpful to very dirty engines.

Reduce Emissions

PHYSICAL PROPERTIES

Size	16 fl. oz. / 473 mL	Cases per pallet	170
Package	Plastic bottle	Cases per layer	34
Flash Point	°F	Layers per pallet	5
Boiling Range	°F (°C)	Cube	0.26
Specific Gravity (H ₂ O = 1)		Case Weight	6.3 lbs
Appearance		UPC (Bottle)	0 89269 40044 8
Solubility in Water		UPC (Carton)	1 00 89269 40044 5
