

★ LUBRICANT SELECTOR GUIDE ★

Proper lubrication is a science that demands different technology to provide the best solution for specific applications. In general, oil will outlast a "dry to the touch" silicone... and grease will outlast oil plus; grease provides a thicker barrier. These are a few of the reasons why at Cyclo we have five of "the best" solutions for your lubricating needs.

#1 CHOICE IN QUALITY
...Around the World!

BREAK-AWAY®
HEAVY DUTY
FAST PENETRATING OIL
Stock No. C-10, C-12,
C-13, C-16

Pure oil based formula for penetration, rust break-down and lubrication
... penetrates, lubricates, and inhibits rust & corrosion.
Break-Away's heavy-duty oil blend leaves a thicker, longer lasting lubricating film that doesn't evaporate quickly.
Formulated to penetrate and lubricate. Break-Away provides maximum protection against further oxidation. It reduces friction and stops annoying squeaks and squeals.
Break-Away does not contain silicone so it can be used in paint and body shops.

WHITE GREASE
HEAVY DUTY
MULTI-PURPOSE SPRAY
LITHIUM GREASE
Stock No. C-34

Penetrating grease for longer lasting protection. Unique liquid formula penetrates, then solidifies to reduce wear, repel moisture, stop squeaks and protect against rust and corrosion.
Excellent heavy duty multi-purpose lubricant for all metal-to-metal and metal-to-plastic contact areas that need long lasting weather protection and lubrication. Will not melt, run, freeze or wash off. The solidified grease stays in place longer providing a stronger lubricating barrier.

SILICONE SPRAY
HEAVY DUTY
SYNTHETIC LUBE
CLEAR • OODORLESS
• WATER RESISTANT
Stock No. C-33

Superior lubrication without oil or grease. Cyclo Silicone Spray dries to the touch for use in areas where clothing or personal contact precludes the use of oil or grease based lubricants. Cyclo's special heavy duty, high quality silicone formula lasts longer and provides better lubrication.
Stops squeaking, sticking and binding; prevents rust and corrosion; restores, conditions and preserves vinyl and rubber. Effective from -40°F to +1400°F.

Z-LUBE™
Water Displacement
Formula
MULTI-PURPOSE LUBE
Stock No. C-405

Lubricating solvent based Z-Lube works on everything – a real multi purpose lube! The newest product in Cyclo's lubricant line is excellent for displacing water for numerous uses like distributors and spark plug wires. It penetrates and frees rusted parts, lubricates and stops squeaks.

It also cleans! It can also be used to remove adhesives, crayon, tar, gum, water deposits and soot marks and more!
Z-Lube was formulated to work in many different situations. Its water displacing characteristics are its major difference from Cyclo's other lubricants.

FASTER™
SUPER PENETRANT
Stock No. C-400

Loosens, cleans & lubricates rusted nuts, bolts & parts FASTER
Faster works rapidly to penetrate and loosen rust, tar, grease, dirt, carbon deposits, and corrosion from metal parts. This fast-acting formula penetrates into hard to reach areas to loosen & disassemble frozen parts.
Uses for releasing rusted or frozen bolts, lug nuts, tight-fitting parts, & overhaul & repair work on plant equipment.

BEST AUTOMOTIVE USES

Spark Plug Removal
Carburetor Linkage
Exhaust Nuts & Bolts
Engine Manifold & Head Bolts
U-Bolts
Battery Hold Down
Brackets
Lug Nuts

BEST MARINE USES

Nuts & Bolts
Hinges
Outside Locks
Engine Compartment
Cables
Controls
Pulleys

BEST INDUSTRIAL USES

Protected Bare Metal
Machinery
Conveyors
Tools
Switches
Relays
Jigs & Fixtures
Fishing Equipment
Bench Vise
Garden Tools

BEST AUTOMOTIVE USES

Hood Hinges
& Latches
Trunk Hinges
& Latches
Seal Tracks
Speedometer Cable
Door Hinges
Windshield Wiper
Mechanism

BEST MARINE USES

Trailer Hitches
Rollers & Springs
Engine Linkages
Engine Mounts
Steering Slides

BEST INDUSTRIAL USES

Chains
Mechanical Equipment
Sliding Mechanisms
Rollers

BEST AUTOMOTIVE USES

Door & Trunk Locks
Window Lifts
Door Mouldings
Weather Stripping
Spark Plug Insulators
Hoses
Rubber Bushings
Rubber Mountings
Antennas

BEST MARINE USES

Electrical Connections
Door Hinges & Slides
Window & Drawer Slides
Cables
Windshield Straps
Zippers

BEST INDUSTRIAL USES

Tools
Mechanical Equipment
Sliding Mechanisms
Tight Installations
Assembly Lines

BEST AUTOMOTIVE USES

Drive Moisture OFF of Distributors,
Spark Plugs,
Ignition Wires
Free Rusted License Plate Bolts
Lubricate & Stop Hinge Squeaks

BEST MARINE USES

Marine Engine Compartments
Engine Cylinders for Storage
Spark Plug Wires
Free Rusted Nuts & Bolts

BEST INDUSTRIAL USES

Electrical Relays, Fuse Boxes
Protected Bare Metal
NOTE: Power sources must be disconnected when used near electrical components.

BEST AUTOMOTIVE USES

Head Bolts
U-Bolts
Brackets
Lug Nuts
Bearings
Screws

BEST MARINE USES

Nuts & Bolts
Hinges
Trailer Hitches
Rebuilding Parts
Deck Fittings

BEST INDUSTRIAL USES

Machinery
Assembly Lines
Rebuilding Parts
Disconnections
Couplings
Corroded Pipe Joints
Bathroom Connections
Corroded Pipe Joints
Patio Furniture
Fasteners
Casters
