

Remove Deposits • Greater Fuel Efficiency • Reduce Friction • Enhance Performance • Condition Seals • Minimize Fatigue

works with
● GAS/PETROL
● DIESEL

ULTIMATE GASOLINE/PETROL FUEL SYSTEM CLEANER

C-2212 6-Pack 16 FL OZ / 473 mL

Powerful cleaning action to restore performance

TWICE THE CLEANING POWER of other fuel system cleaners because there is twice the amount of synthetic cleaning additive

CLEANS DEPOSIT BUILD-UP from fuel injectors, intake valves, manifolds and combustion chamber

REDUCES EMISSIONS by improving fuel spray

ELIMINATES PROBLEMS associated with a dirty fuel system – hesitation, poor acceleration, rough running, knock, stalling and engine run-on

INCREASES FUEL EFFICIENCY

FORMULATED TO CLEAN dirty engines and maintain maximum performance in engines of all ages

Use every 3,000 miles (4,800 km) to maintain maximum power

works with
● GAS/PETROL
● DIESEL

ULTIMATE DIESEL FUEL SYSTEM CLEANER

C-2215 6-Pack 16 FL OZ / 473 mL

Created specifically for the heavy deposit build-up that occurs in diesel fuel

TWICE THE CLEANING POWER of other fuel system cleaners because there is twice the amount of synthetic cleaning additive

CLEANS DEPOSIT BUILD-UP from fuel injectors, intake valves, manifolds and combustion chamber

REMOVES WATER from fuel for increased power and restored performance

CONTAINS NO ALCOHOL - safe for repeated use

PROLONGS LIFE of injectors and fuel pump

INCREASES EFFICIENCY in engine operation

PREVENTS DETERIORATION from rust and corrosion

REPLACES LUBRICITY for low sulfur fuel

Use 1,000 miles prior to emission testing and every 3,000 miles (4,800 km) for continuous benefits

works with
● GAS/PETROL
● DIESEL

ULTIMATE DIESEL EMISSION CONTROLLER

C-2235 6-Pack 16 FL OZ / 473 mL

Decreases emissions common to diesel fuel

REDUCES SMOKE AND EMISSIONS while improving fuel economy

PROVIDES STABILITY during storage

REDUCES PLUGGING of filter and fuel injector to ensure proper fuel spray; uneven spray is one of the main causes of smoke

ESSENTIAL FOR COLD WEATHER where combustion efficiency is reduced resulting in smoke and reduced power

TREATS FUEL to reduce corrosion and rust

REPLACES LUBRICITY for low sulfur fuel

Use 1,000 miles (1,600 km) prior to emission testing and every 3,000 miles (4,800 km) for continuous benefits

works with
● GAS/PETROL
● DIESEL

ULTIMATE GASOLINE/PETROL EMISSION CONTROLLER

C-2232 6-Pack 14.5 FL OZ / 428 mL

Thickest formula available to reduce emissions

REDUCES EXHAUST SMOKE and stops minor oil leaks by filling in gaps created by friction and metal-to-metal contact

FILLS IN GAPS to prevent oil from mixing with fuel, the main source of exhaust smoke

COATS WALLS AND PARTS to prevent further damage

RESTORES COMPRESSION, quiets lifters, and revitalizes seals and gaskets

MIXES WITH ALL OILS – petroleum & synthetic

IMPROVES PERFORMANCE in oil burning engines

Add to warm motor oil after each change and prior to emissions testing

works with
● GAS/PETROL
● DIESEL

TRANSMISSION CONDITIONER AND STOP LEAK

C-2270 6-Pack 12 FL OZ / 355 mL

Essential in demanding transmissions – vehicles towing heavy loads, motor homes etc.

STOPS LEAKS by conditioning dried, hardened or shrunk transmission seals

SMOOTH & QUIETER SHIFTING by reducing gear and bearing noise

CONTAINS NO SOLVENTS

UNAFFECTED BY EXTREME hot or cold temperatures

USE TO STOP EARLY WEAR in new transmissions

SPECIAL ANTI-FOAMING AGENTS

For leaks, add according to manual. For preventive maintenance, use at every fluid change

with
CX3 MAX™

ULTIMATE ENGINE TREATMENT

C-2250 6-Pack 12 FL OZ / 355 mL

Synthetic Metal Treatment - not a lubricant, additive or petroleum based

works with
● GAS/PETROL
● DIESEL

SIGNIFICANTLY REDUCES FRICTION by attaching to loose metal particles and permanently bonding to metal

DOES NOT CONTAIN PARAFFINS or any other cladding materials

FRICTION REDUCTION OF UP TO 650% lowers engine temperature, increases performance, keeps engine clean and reduces fuel consumption

WORKS IN ALL ENVIRONMENTS with high-pressure and high-temperature requirements for iron and steel

CAN BE USED IN MULTIPLE APPLICATIONS including industrial, marine, food industry, pre-assembly lube, tools with metal-to-metal cutting, HVAC pumps & more

NON-TOXIC AND NON-FLAMMABLE

GREAT VALUE - one bottle is good for multiple treatments

BIODEGRADABLE

with
CX3 MAX™

ULTIMATE OIL TREATMENT

C-2290 6-Pack 14 FL OZ / 414 mL

Add to all motor oils to reduce friction

works with
● GAS/PETROL
● DIESEL

DETERGENT FORMULA QUIETS valves, rings and lifters by removing deposits and fighting sludge build-up

RESTORES COMPRESSION by treating worn rings

COATS ENGINE with anti-wear protection for added protection during cold starts, high revs and extreme loads

FORTIFIES OIL to resist oil break-down under heat and pressure

NEUTRALIZES HARMFUL ACIDS from combustion by-products that cause rust, corrosion and wear

Use in engine or as assembly lubricant

Introducing CX3 MAX™

Powerful metal reconditioning treatment

Why do you need CX3 MAX?
Because friction is the main reason engines die!

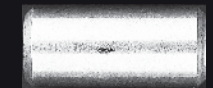

Bonds with loose metal particles and bonds to metal - filling in cracks & scratches to create a smooth surface.

Testing shows as a bearing is placed in lubricant with new synthetic anti-friction formula **CX3 MAX** and weight is gradually applied.

Damage with standard treatments 90 lbs/8 sec

Minimal damage with new anti-friction formula at 6000 lbs/10 min
